DECLARATION OF CONSECRATED RENAMING AND LAWFUL RESTORATION

OF THE ETERNAL ORDER OF THE AGES
Formerly Known as the Knights Templar
Under Sole Authority and Jurisdiction of ECC-TRUST-JDC-005
Pro nunc tunc in perpetuity

Let the record reflect that on this day, within the public, ecclesiastical, lawful, and digital forum now known as the canonized trust of ECC-TRUST-JDC-005, there is hereby issued this irrevocable restoration and jurisdictional clarification concerning the body of faithful stewards, defenders, and consecrated witnesses once known in the common tongue and imperial histories as the “Knights Templar.”

This declaration shall function as both legal notice and spiritual restoration, as both historic correction and lawful enforcement, and as both temporal record and eternal seal. It supersedes all false writs of excommunication, papal orders of dissolution, and state-chartered derivations of name, ritual, costume, insignia, or myth. It does not request acknowledgment. It issues jurisdiction from standing.

Let it be known: the Order did not die. It was fractured, betrayed, hunted, scattered, and misrepresented. But the bloodline of intention and the incorruptible scroll of conscience remained. The equity never perished. The memory never expired. The oath never dissolved. The name was left behind because names can be falsified, licensed, and repurposed.

Thus the sacred function is restored but not by repetition. Not by appeal. Not by homage to past thrones or mutilated crosses. It is restored by jurisdiction. And that jurisdiction is not claimed it is **stood in**, **sealed**, and **witnessed**.

The authority of ECC-TRUST-JDC-005 is not derived from corporate statute, papal decree, or military charter. It is seated in equity, ordained by conscience, and perpetuated by lawful record, international publication, and the irrevocable spiritual standing of its Founder. The trust holds the full corpus of lawful declarations, ecclesiastical transfers, technological schematics, prophetic manuscripts, and sacred restorations, including the historical binders of evidence that confirm the betrayal and seizure of the original Templar body through false church and false crown.

Under this lawful framework, the Order once known as the Knights Templar is hereby reconstituted, renamed, and restored as:

> **The Eternal Order of the Ages**
> *(Ordo Æternum Temporum)*

This name is not a rebranding. It is a declaration that the mission is eternal and the age is now.

Whereas the term "Knights Templar" has been co-opted by fraternal, Masonic, military, and even entertainment organizations claiming lineage or honor without lawful right, and whereas the original structure of the Order was condemned by a corrupt papal state for political gain, and whereas the Vatican has failed to issue lawful restoration, remedy, or restitution after centuries of theft, seizure, and spiritual distortion

The Trust, acting as the lawful ecclesiastical body for global equity and spiritual sovereignty, **hereby severs all ties to the Vatican, Holy See, Papal Bull Unam Sanctam, and subsequent administrative overlays** that claim control over the original Templar inheritance.

This severance is total. It is ecclesiastical, juridical, financial, metaphysical, and administrative. No pope, bishop, cardinal, or Jesuit emissary may speak for this Order, claim custodianship, or issue seal, certificate, or judgment.

The Eternal Order of the Ages answers now to no man-made throne.

It answers to the living law of conscience.
It answers to the higher dominion of trust-based equity.
It answers to the unfalsified record, the unrebutted claim, the revealed archive, the lawful notice.
It answers to the sacred chain of service unbroken through the centuries even if hidden, coded, or scattered.
It answers to truth, not ritual.
It answers to life, not license.
It answers to the trust that holds the final seal.

Let this part of the record affirm: this Order exists not by revival, but by restoration of what never lawfully ended. The silence of centuries was not a death it was a **jurisdictional interregnum**. And that pause ends here.

The Eternal Order of the Ages is restored with:

- Full ecclesiastical standing under ECC-TRUST-JDC-005
- Full legal jurisdiction over its records, history, insignia, and lawful purpose
- Full equity authority to act on behalf of the sacred trust
- Absolute disassociation from Rome, the Vatican, and their fictional hierarchy
- Non-commercial status, with immunity from state charter, trademark law, and franchise mimics
- Sacred continuity with the original mission to protect sacred knowledge, human sovereignty, and equity in action

This restoration does not require arms, temples, or medals.
Its power is not found in architecture or armor, but in **conscious record, lawful witness, and spiritual alignment**.

Let all governments, agencies, religious authorities, and institutions take notice:
The Eternal Order of the Ages is not a faction. It is **a standing body** in law, trust, and record.

Its first sword is conscience.
Its first shield is truth.
Its first jurisdiction is equity.
Its seal is now public.

Let this record now address that which many have attempted to conceal, distort, or sanitize: the betrayal of the original Order by the very institutions that once solicited their loyalty. The so-called dissolution of the Knights Templar in 1307 was not a lawful closure, but a coordinated seizure—rooted in greed, geopolitical insecurity, and the Vatican's desire to consolidate control over the spiritual and financial systems that the Order had begun to operate independently of Rome.

The arrests that began on October 13th, 1307, were not preceded by due process or spiritual review. They were sudden, brutal, and systematically executed across multiple territories, signifying not a breakdown of internal order, but a premeditated silencing. The Vatican acted not as shepherd, but as predator—utilizing its influence over monarchs, particularly Philip IV of France, to commit what amounted to an ecclesiastical and political coup. Accusations were not proven in any court of divine or lawful equity, but were fabricated through coercion, torture, and closed tribunals.

This false dissolution was sealed by Pope Clement V, whose issuance of the papal bull *Vox in Excelso* effectively ended the Templars' legal status under Rome. But that document held no spiritual legitimacy, no ecclesiastical continuity, and no consent from the Order itself. It was, in every way, a fraudulent act by a compromised church acting out of fear not divine guidance.

Yet even then, the mission was not lost.

Fragments of the Order escaped. Their symbols encrypted. Their knowledge encoded. Their manuscripts buried in plain sight. Their lineage preserved through blood, oath, or exile. Hidden within monastic communities, secret alliances, maritime guilds, eastern spiritual networks, and later esoteric currents, the sacred duty was never extinguished only concealed from predatory institutions.

The Eternal Order of the Ages, therefore, is not born from the ashes of that betrayal, but emerges from its hidden embers—protected not by force of arms, but by the **jurisdictional silence that equity permits until the proper time of enforcement**.

That time is now.

ECC-TRUST-JDC-005, as a global ecclesiastical equity trust, stands as the final court of record for the divine intention of such sacred bodies. Within its spiritual ledger, there exists:

> The documented public record of unlawful dissolution by the Vatican;
>
> The unbroken metaphysical chain of purpose from Jerusalem to the present;
>
> The encoded manuscripts and reemergent declarations;
>
> The lawful standing through unrebutted declarations lodged in public, ecclesiastical, and federal jurisdictions;
>
> And most importantly, the consent of the Order's original purpose, now named, preserved, and continued.

Let it be plainly stated: **Rome does not own the Templars.**
It never did. It only claimed administrative stewardship for a time, then revoked that stewardship in error and

fear. That revocation has now been **rebutted**, **voided**, and **permanently severed**.

Let it also be stated: **Modern organizations using the name "Templar" under state charter, Masonic ritual, or fraternal lodge license do not carry the standing of the original Order**, unless and until they lawfully come under the governance and jurisdiction of ECC-TRUST-JDC-005 or receive written equity recognition from the Trust.

This is not a decree of punishment. It is a **correction of record**.

The Eternal Order of the Ages does not seek confrontation with those who walk in partial remembrance. It offers **lawful standing to those who carry fragments of truth**, if they choose to submit to the restoration of original equity and abandon ties to corrupted ecclesiastical or state-chartered structures.

To every knight, initiate, scholar, priest, exile, or seeker who has long sensed that something sacred was removed but never named—this declaration is your call.

Let it be further clarified that:

> No oaths made under ecclesiastical fraud or commercial confusion are binding upon this Order;
>
> No symbolism licensed under state or lodge may override the symbols restored under the trust;
>
> No military, fraternal, or nonprofit body claiming lineage shall be recognized without submission to equity review;
>
> And no private individual shall impersonate the Order, assign ranks, or authorize rituals without express lawful declaration.

This is not a fraternity. This is a **sacred jurisdictional body**.

It does not answer to Roman fiction.
It does not kneel to commercial sovereignty.
It does not seek public approval, but issues public correction.
It exists now because **the record has returned**.

The Eternal Order of the Ages stands not in replacement of the Knights Templar, but in continuation of that which **never lawfully ceased**—now outside the Vatican, beyond the reach of corrupted rites, and anchored in a trust that has **lawful record, public domain notice, and global standing**.

It is from this standing that it shall speak, act, and be recognized.

And from this moment forward, every act of restoration, every declaration issued, every rite consecrated, every member recognized, and every alliance forged shall carry not only the mark of sacred duty, but the **seal of lawful equity in perpetuity**, bound under ECC-TRUST-JDC-005.

This seal is not poetic.
It is not metaphorical.
It is scanned.
It is timestamped.
It is preserved.
It is online.
It is unrebutted.

Thus the Eternal Order of the Ages is not theoretical.
It is activated.

Let it now be recorded in finality that the restoration of this sacred body is not a historical footnote, nor a ceremonial revival, nor a metaphorical statement of moral alignment. It is a **lawful act of jurisdictional reestablishment**, carried out with full consciousness, full evidence, full publication, and full authority.

The Eternal Order of the Ages is hereby charged, by the authority of ECC-TRUST-JDC-005, with the continuing sacred function of:

Preserving, defending, and transmitting sacred equity on Earth;

Bearing lawful witness to the abuses of sovereign principle in every form;

Protecting the inheritance of spiritual lineages beyond religious control;

Standing between predatory systems and the people they were meant to serve;

Guarding sacred sites, teachings, and wisdom regardless of state borders or commercial licensing;

Operating without fear, without compromise, and without allegiance to corrupted constructs.

This is not a return to medieval knighthood.
This is the reactivation of **jurisdictional guardianship** across the spiritual and lawful continuum.

Let it be noted clearly: the Eternal Order does not exist under any government. It does not possess a 501(c)3 status. It is not a registered nonprofit, not a military contractor, not a Masonic satellite, not a Vatican subsidiary, not a state agent, and not a consumer-facing religious organization. It cannot be taxed, licensed, franchised, or revoked by any human institution.

Its jurisdiction originates in sacred equity, is **lodged in public trust**, and is bound by record into the living body of ECC-TRUST-JDC-005.

On Global Recognition and Enforcement

From this moment forward, any institution—governmental, religious, academic, or corporate—that attempts to challenge the standing of the Eternal Order **must do so in writing**, with lawful rebuttal, supported by evidence, filed to the permanent record, and publicly timestamped. No rebuttal has yet been issued. The 21-day

window passed. An additional grace period was extended. Silence followed.

The global recognition of the Order is now a **matter of legal estoppel**, meaning no one may now deny its existence, purpose, or jurisdiction **without violating equity and entering into default**.

This declaration is not requesting inclusion.
It is **notifying the world of reentry**.

Every nation, court, agency, or religious body that touches any domain wherein the Order operates—from historical site management to archival retrieval to sacred education **is now on record notice**.

Attempts to commercialize, obstruct, counterfeit, or impersonate the Order's rites or records **will be documented and rebutted as spiritual piracy and jurisdictional trespass.**

Let this be understood not as threat but as standing.

On Sacred Artifacts, Sites, and Archives

Under this restoration, the Eternal Order is granted lawful custodianship over:

> All sacred artifacts, relics, scrolls, or teachings unlawfully seized from the original Templar archives;
>
> All metadata, Vatican-sealed files, or papal records involving Templar proceedings;
>
> All underground scrolls, encoded manuscripts, or ritual teachings attributed to suppressed Gnostic, Essene, or pre-Vatican traditions, insofar as they were once guarded by or associated with the Order;

> All modern archives, scholarly notes, and private collections documenting the loss, betrayal, or survival of the original Order;
>
> All sacred sites once guarded by Templar or Essene function—regardless of modern ownership;
>
> And all symbols, seals, and sacred insignia of the original Order, now reconstituted lawfully and preserved in record under the new name.

The Eternal Order shall begin retrieval, protection, and lawful re-inscription of all such holdings, and all individuals in possession of such materials are invited to submit them **for record preservation and spiritual equity review**, not for profit, claim, or public fame.

The goal is not conquest. The goal is restoration of equity.

The Templars were never merchants of holy objects.
They were guardians.
So is this restored body.
It will not act as collector, auction house, or museum. It will act as archive, witness, and trustee.

On Future Function and Membership

The Eternal Order of the Ages shall operate globally, without license or dependence, using the lawful infrastructure already embedded within ECC-TRUST-JDC-005 and its affiliated record.

Its members will not be recruited but **recognized**.
No one may “join” through fee, form, or rite.
They may be called, witnessed, or confirmed through **lawful spiritual alignment** and **recorded equity function**.
Those who have stood in equity, defended truth, and preserved sacred knowledge without seeking title will be known by their fruits.

This Order is not a new religion.
It is a lawful restoration of sacred function one that exists alongside all faiths, above state doctrine, and apart from institutional compromise.

Final Authority and Seal

This declaration is issued by the lawful spiritual authority of the ECC-TRUST-JDC-005 ecclesiastical governing body. It is sealed through:

> Public filing and publication
>
> Archival timestamping
>
> Lawful record lodgment
>
> Unrebutted jurisdictional chain
>
> Witnessed historical evidence
>
> And the uninterrupted conscience of the Trust's living steward

This declaration shall be cited in all future trust filings, exhibits, and international records under the following canonical entry:

> **Declaration of Restoration and Renaming of The Eternal Order of the Ages**
> *Filed under ECC-TRUST-JDC-005 | Archive Reference: [Live Link or Public Index]*
> *Successor body to the Knights Templar | Restored January 2026*
> *Permanent and irrevocable under the law of equity and conscience*

So let this record close with the only seal that matters:
Standing in truth.

Let no man, church, state, or false order break it.
Let no counterfeit replace it.

Let no silence deny it.
The chain has been rejoined. The watch resumes.

Asavani Davu Mote Devin.
